

Standard Operating Procedure (SOP)

HeartPulse Traceability Matrix Review Process

Document ID	SOP-HRPMON-001
Version	1.0
Status	Draft for Testing
Use Note	Sample SOP for AI traceability matrix testing only.

Purpose

This SOP defines the process for reviewing AI-assisted traceability matrix output for the HeartPulse mobile app validation test pack.

SOP ID	Procedure Area	Procedure Statement
SOP-001	Document Upload	Only approved validation lifecycle documents shall be uploaded for traceability generation.
SOP-002	Category Review	The user shall confirm URS, FRS, DS, IQ, OQ, PQ, and SOP document categories before extraction.
SOP-003	Traceability Review	AI-generated traceability matrix rows shall be reviewed by QA or Validation personnel before use.
SOP-004	Gap Handling	Missing documents or missing mappings shall be documented as gaps and resolved or justified.
SOP-005	Export Control	Exported traceability matrices shall be version controlled and reviewed before approval.
